Key messages

Why we have sent you this report

On 10 December 2021 the Company exited Administration and moved to Creditors' Voluntary Liquidation ("CVL"). The first 12 months of the CVL have now concluded and so we set out below our first CVL report outlining the progress with the case and an update on the proposed exit process. Creditors may wish to read this report in conjunction with our previous progress reports in the Administration and our initial Proposals document, all of which continue to be available on the Company Website, along with this report and other important information.

As previously highlighted, in accordance with the General Scheme and the Insurers (Reorganisation and Winding Up) Regulations 2004, the claims of the Direct Scheme creditors are to be paid in full in priority to the claims of the General Scheme creditors. Creditors are reminded that on 30 September 2022, although we had not agreed all Direct Scheme claims, we were in a position to confirm that the current level of agreed Direct Scheme claims exceeded the Company's distributable funds. As a result, we also confirmed that no General Final Claims Time would be set and there would be no distribution to the General Scheme creditors.

This report also includes details of work carried out in the period between 27 November 2021 and 9 December 2021, being the final period of the Administration. Please refer to the 'What happens next' section for more information on next steps for Direct Scheme creditors and key dates in relation to the CVL and the Direct Scheme.

How much creditors may receive

68 claims were received from Direct Scheme creditors prior to the Direct Scheme Final Claims Time of 10 August 2021. We have made significant progress in the agreement of Direct Scheme claims and as at 9 December 2022 47 of these claims had been agreed with a combined determined value of \$46.5m. Significant work has also been undertaken in relation to the 21 outstanding claims, with a total submitted value of \$84m, which were in progress but had not been agreed as at 9 December 2022. The process to review and assess these remaining claims is progressing well and we hope to have all claims agreed during the second quarter of 2023.

The following table summarises the possible outcome for creditors, which will depend on the final level of agreed claims and the distributable assets of the Company after all assets have been realised and all costs of the process have been paid. Please note this guidance on dividends is only an estimate. Creditors should exercise caution in relying on these figures and all estimates included in this report for any purpose. The Liquidators will not be responsible for any losses incurred in relation to these or other estimates contained in this report.

| Class of creditor ¹ | Current estimate (c in \$) | Previous estimate whilst in Administration (c in \$) |
|---|----------------------------|---|
| Direct Scheme - US creditors ² | 26c - 34c | Uncertain |
| Direct Scheme - Non US creditors | 24c - 32c | Uncertain |
| General Scheme creditors | Zero | Zero |

What you need to do and what happens next

This report is for your information and you don't need to do anything at this stage in relation to it.

We will continue to assess and agree the remaining Direct Scheme claims which we hope to conclude during the second quarter 2023. We will also be contacting all Direct Scheme creditors with agreed claims in the coming months to confirm bank account information and other details necessary to complete appropriate checks before a distribution can be paid. We hope to be in a position to pay a distribution to Direct Scheme creditors with agreed claims during the third quarter of 2023. All creditors should continue to refer to www.pwc.co.uk/stronghold for important information and updates on progress.

¹ There was no floating charge registered against the Company's assets. Given the low number of employees and low value of their potential

² US creditors are eligible to receive pro-rata distributions from the US Trust Fund, which increases their expected return compared to non-US creditors.

Overview of work carried out in the Administration

This section of the document deals with the key activities we have undertaken in the Administration. Updates on each of these areas have been explained in our earlier reports.

Operations

Employees

Three employees were made redundant on 5 July 2019 and three individuals were retained as employees of the Company. The retained employees were key to achieving the objectives of the Administration and, in recognition of this, we implemented a retention and incentive plan as part of their contracts in operation during the Administration (which carried over into the CVL). This arrangement mirrored the one that was in operation prior to Administration.

Following the impact of COVID-19 and the UK Government's guidance in relation to working arrangements, we worked with the Company staff to ensure there was no disruption to conducting business as usual, whilst implementing safe working practices that adhere to social distancing rules in relation to office working.

IT Infrastructure

We reviewed the Company's existing IT infrastructure and found that certain elements were near the end of their life and needed to be replaced to continue operating effectively. Due to the significant cost that would be required to update the existing IT hardware, a more cost effective solution to replace the redundant hardware was sourced and the Company transitioned to a cloud based system.

US Litigation

The Company was involved with 46 ongoing litigated cases. We immediately informed the respective lawyers in these active cases of the Company's Administration and instructed them not to perform any further work without our approval. Subsequently we liaised with the lawyers regarding the most efficient way for the Company to conclude its participation in the litigated claims, which we considered to be a mutual dismissal of the Company.

We were informed that the Company had been dismissed from 22 cases, but remained a participant in 24 cases.

Corporation Tax

We brought the Company's corporation tax affairs up to date as at 31 December 2018 and also filed the 31 December 2019 and 31 December 2020 tax returns with HMRC. No tax was payable in relation to these returns.

VAT

We completed the pre-Appointment VAT return and received a refund from HMRC. We completed the first post-Appointment VAT return, spanning the period from 27 June 2019 to 30 September 2019, as well as eight subsequent quarterly VAT returns up until 30 September 2021 which have all been filed with HMRC and VAT recoveries made.

Asset recoveries

Freehold

The Company had operated from a three storey freehold property in Norwich since 2008. In the Statement of Affairs the Directors estimated value of the property was £580k.

During the Administration we completed the sale of the property for £620k (before deducting selling and legal fees). The Stronghold employees continued to operate from home which meant that replacement office space was not required and resulted in lower ongoing operating costs.

Reinsurance debtors

As per the Directors' Statement of Affairs, on Appointment the Company had reinsurance debtors with a book value of £2.2m and an estimated net realisable value of £1.1m. The Administrators instructed the Company staff to continue to pursue potential recoveries from both solvent and insolvent insurers.

During the Administration, we recovered £444k (GBP equivalent).

Shares held

The Company held a number of shares in a company called Occam Underwriting Limited. During the Administration Occam Underwriting Limited's majority shareholder offered to buy out all other existing shareholders. After careful analysis and consideration the Administrators accepted this offer and £41k was realised.

Escrow recoveries

The Company had deposited various funds into escrow accounts in relation to future work expected to be undertaken by various US attorneys. Given that these lawyers were instructed to perform no further work by the Administrators, we requested the return of any surplus escrow funds and £73k (GBP equivalent) was returned to the Company.

Cash and other investments

The Administrators secured all cash held by the Company in the bank accounts and subsequently transferred this to new Administration bank accounts.

In addition to cash, the Company also held various corporate bonds which were valued by an independent third party at £3.6m. All the bonds in the portfolio were subsequently sold for credit quality and risk reasons, and the £3.6m realised paid into the new bank accounts.

The Company also had a loan agreement, with receivables due from a third party. The two remaining payments of \$472k due to the Company were paid during the Administration.

Treasury management

Following the impact of COVID-19 there was a reduction in the interest rates applicable on the credit accounts held by the Company.

During the Administration, we continued to monitor rates to ensure that the funds are invested to maximise the available interest rates whilst remaining in line with PwC's treasury management policies covering such matters as credit quality and counterparty diversification.

Letters of Credit with named beneficiaries

Some US policyholders were beneficiaries of Letters of Credit issued by Citibank N.A. on behalf of the Company. The Letters of Credit were supported by cash previously deposited with Citibank N.A. by the Company. These arrangements were put in place in the 1960's and served as collateral to claims for US policyholders. The value of the 28 Letters of Credit with named beneficiaries totalled \$1.9m. The Letters of Credit were "evergreen", such that they were automatically extended for an indefinite period, until such time as the issuing bank informs the beneficiary of its final expiration.

In July 2019, the Administrators were notified by Citibank N.A. that it intended to unilaterally non-renew all of the Letters of Credit. Subsequently, Citibank N.A. notified all the named beneficiaries that the Letters of Credit were not being renewed beyond 31 December 2019. In November 2019, the Administrators contacted all named beneficiaries regarding the impending expiry of the Letters of Credit.

Following the expiry of the Letters of Credit on 31 December 2019 a total of \$1,370k had not been drawn-down and was returned to the Company in January 2020.

US Trust Fund

There was also a single Letter of Credit supporting the Trust Fund to the value of \$1.5m. The relevant Letter of Credit was drawn down by the trustee of the Trust Fund on 31 December 2019. Since then we have been liaising with the trustee, the NYDFS and the NAIC, regarding the proposed distribution of funds.

Chapter 15 recognition

In September 2019 an application was made to recognise the Administration in the US Courts under Chapter 15 of the US Bankruptcy Code. No objections to the application were made, the order was granted and the process completed on 23 October 2019. The order provided a stay, preventing creditors commencing or continuing US legal actions against the Company. The benefits of the order included the protection of the assets of the Company, providing the Company with additional time to consider its ongoing approach to the various litigation matters and reduced legal costs whilst the matters were stayed. In addition, we confirmed it was also our intention to seek Chapter 15 recognition for the approved Schemes, which would make them binding on all US creditors.

We made an application to recognise the Schemes in the US Courts under Chapter 15 of the US Bankruptcy Code. No objections to the application were made, the order was granted and the process completed on 27 October 2021.

Statutory work

We also completed various tasks as required by statute including:

- Preparing a remuneration report;
- Undertaking investigations, including our duties under the Company Directors Disqualification Act 1986 and SIP2;
- Considering connected party transactions;
- Maintaining appropriate books and records; and
- Reporting to creditors on progress.

Exit strategy

Schemes

The purpose of the Administration was to achieve a better result for the Company's creditors as a whole than would be likely if the Company were wound up (without first being in Administration). The Administrators believed that a Scheme of Arrangement, similar in nature to a plan of reorganisation, was the best mechanism to achieve the purpose of the Administration.

Given the Company's insolvency the Administrators considered various alternative approaches for dealing with creditors' claims but concluded that two Schemes of Arrangement would provide the most appropriate mechanism to protect the interests of all creditors, including insurance policyholders as the Company: (a) had been in run off for over 30 years, therefore having a very mature book of business; (b) has never written retail insurance business, its remaining policyholders being sophisticated commercial organisations; and (c) does not have any policyholders that would be subject to the protection of the FSCS.

Both the Direct Scheme and General Scheme were approved by creditors and the Court and became effective on 11 February 2021.

Direct Scheme claims assessment

68 claims were submitted before the Direct Scheme bar date and work was undertaken during the Administration to ensure that these claims were properly assessed and appropriately valued in accordance with the Direct Scheme.

Stakeholder engagement

Creditors' Committee

A Creditors' Committee was established in the Administration to assist the Administrators in discharging their functions as office holders. A Creditors' Committee was established in accordance with the Schemes, which mirrored the participants of the Administration Creditors' Committee. We communicated with the Creditors' Committee throughout the Administration to discuss issues and outline key decisions.

Independent fee assessor

A fee assessor was appointed to assist the Creditors' Committee regarding approval of our fees.

Regulatory engagement

We completed various submissions required by the Regulators.

We also continued to engage and cooperate with both the PRA and FCA on the progress of the Schemes and report matters that arise. The PRA and FCA were informed of our plans in relation to the Company leaving Administration and entering CVL.

Information relating to the administration for the period after the Administrators' final report

Below is a summary of the activities undertaken between the period of the Administrator's final progress report and the commencement of the CVL, being 27 November 2021 to 9 December 2021. Activity in this period totalled 60.75 hours and £25,362.70 of time costs and included the following work undertaken:

- Treasury Management and transfer of funds;
- Ongoing run-off management including processing payments;
- Activity in relation to the move to CVL; and
- Ongoing case administrative tasks.

Progress in the CVL since our Liquidation Appointment

Operations

Employees

Following the progress made with winding down the estate and based on the reduced level of future work required two of the employees have left the Company after we provided them both with their contractual notice period. The last remaining employee has also been provided with his contractual notice period, with his last date of employment with the Company set to be 31 March 2023.

Treasury management

We continued to undertake ongoing monitoring of assets under investment, including any required credit, operational, settlement and contractual risk management tasks.

At the end of the Period the Company held funds of US\$95k and £232k in interest bearing current accounts, with US\$29.6m held in money market deposit accounts.

Asset recoveries

Reinsurance debtors

We completed a successful sale of the remaining reinsurance book to five specialist reinsurance debt acquirers for a total of \$254,310, as well as making some other reinsurance collections in the Period prior to the sale. The final remaining reinsurance balance of \$91,230 (net of commission) was received shortly after the Period. Total recoveries from reinsurance total over \$1m.

US Trust Fund

We have been liaising with the trustee, the NYDFS and the NAIC regarding the proposed distribution of funds.

We are working with each of the parties, to ensure appropriate steps are followed to ensure the recovery of the balance as soon as possible for distribution to US Direct Scheme creditors. We anticipate that the funds will be returned to the Company by 31 March 2023.

Stakeholder engagement

We continue to maintain ongoing positive dialogue with all stakeholders and encourage creditors to monitor the Company Website for updates in relation to the Schemes. Should creditors or other stakeholders have any queries these can be sent via email to uk_stronghold@pwc.com.

Regulatory engagement

The Company is an authorised and regulated insurance company and as such must comply with various regulatory requirements and submissions. During the CVL we have completed various submissions required by the Regulators.

We have continued to engage and cooperate with both the PRA and FCA on the progress of the CVL and the Scheme and report matters that arise.

Creditors' Committee

We established a Liquidation committee, which mirrored the Creditors' Committee in operation during the Administration and the Schemes.

The Formal and Observer Members of the Liquidation Committee, and the individuals they are represented by are as follows:

Formal Members Observer Members - American International Group* represented by - AXA Belgium S.A.* represented by Caroline Marcus Doran; Masset - Carrier Corporation^ represented by Benedict - Borg Warner Inc^ represented by Bette Orr; Lenhart: - DCo LLC[^] represented by Duncan - Mercantile Indemnity Company Limited* McLaughlin; represented by Kenny McManus; - Lamorak Insurance Company* represented by - The Sherwin Williams Company[^] represented Graham Loxley; and by John Lebold; and - Warren Pumps LLC[^] represented by Gregory - WRG Asbestos PI Trust^ represented by Mark Garbowski. Lascelles ^ Denotes Direct Scheme creditor

We continue to communicate with the Creditors' Committee regarding the Schemes and to discuss issues and outline key decisions. We last met with the Committee on 27 September 2022 and last provided a written update on the progress in the CVL on 21 December 2022. We are grateful to the Creditors' Committee for their ongoing support.

Fee approval

* Denotes General Scheme creditor

On 27 September 2022 the Creditors' Committee approved PwC's (non-actuarial team) costs and expenses to 30 June 2022. The Creditors' Committee also approved PwC's (non-actuarial team) proposed rates effective from 1 July 2022.

At the same meeting the Creditors' Committee (1) approved PwC's actuarial team costs to 27 September 2022, (2) approved new actuarial rates effective from 1 September 2022, and (3) agreed a budget for actuarial input into the remaining claims work.

We continue to bill 75% of actuarial and non-actuarial fees on account, as agreed with the Creditors' Committee, with the remaining 25% subject to review and approval by the Creditors' Committee.

Direct Scheme claims assessment

We continue to assess Direct Scheme claims, in accordance with the Direct Scheme, in the CVL.

Following discussions with the Creditors' Committee, PwC's actuarial team was engaged at the end of October 2021. In advance of this, numerous data requests were sent to creditors so that responses were ready for the actuarial team to commence work on their assessments in November 2021.

Through the work of the Stronghold team, the non-actuarial team and the actuarial team the first claim was agreed on 20 December 2021 and progress has been made during the following 12 months on advancing the remaining claims. As at 9 December 2022, some 47 of the 68 claims have been agreed with a combined determined value of \$46.5m. The 21 outstanding claims, with a total submitted value of \$84m, were in progress but remained to be settled as at 9 December 2022. The process to review and assess these remaining claims is progressing well and we hope to have all claims agreed during the second quarter of 2023.

Other statutory information

Our receipts and payments account

We set out in Appendix A an account of our first receipts and payments in the CVL from 10 December 2021 to 9 December 2022 and also include the movements in the final period of the Administration which was not covered in the Final Administration Progress Report, 27 November 2021 to 9 December 2021.

Our fees and expenses

We set out in Appendix B a statement of the expenses we have incurred in the CVL from 10 December 2021 to 9 December 2022.

We set out in Appendix C an update on our fees, disbursements and other related matters. The basis of our fees was agreed in the Administration and we continue to have our fees reviewed and approved by the Creditors' Committee in the CVL.

Corporation Tax

We have completed the tax return for the period ended 9 December 2021 and filed this with HMRC. No tax was payable with this return.

The return to 9 December 2022 is in progress and work has commenced to consider the final tax return and submission of the tax clearance application to HMRC.

VAT

We have completed VAT returns for the periods ended 31 December 2021, 31 March 2022, 30 June 2022 and 30 September 2022 and filed these with HMRC. A total of £315k was repaid to the Company in relation to these returns.

Creditors' rights

Creditors have the right to ask for more information within 21 days of receiving this report as set out in Rule 18.9 IR16. Any request must be in writing. Creditors can also challenge fees and expenses within eight weeks of receiving this report as set out in Rule 18.34. This information can also be found in the guide to fees at:

What we still need to do in the CVL and Scheme

- Manage and agree the remaining Direct Scheme claims made against the Company;
- Recover the funds in the US Trust Fund for distribution to Direct Scheme US creditors;
- Continued liaising with the remaining staff member regarding matters pertinent to the CVL and Schemes;
- Liaise with suppliers regarding ongoing supply of services necessary for trading and eventual exit from commitments;
- Process receipts and payments during the trading period;
- Respond to creditor queries in relation to the Direct Scheme;
- Facilitate a distributions to Direct Scheme creditors;
- Ongoing dialogue with creditors, the Creditors' Committee and Regulators;
- Provide appropriate information to the Creditors' Committee in relation to our activities and fees;
- Continue to comply with statutory and regulatory requirements, including tax, VAT and other formal returns;
- Work in relation to the appropriate exit strategy from the Schemes and the CVL, including tax clearance; and
- Terminate the Schemes and complete necessary closure steps for the Company.

Next report

We expect to send our next report to creditors at the end of the liquidation or in about 12 months, whichever is the sooner.

If you have any questions, please get in touch with Louis Isaacson on +44 (0) 780 523 5949 or by emailing uk_stronghold@pwc.com.

Yours faithfully

For and on behalf of the Company

The table above represents our first receipts and payments in the CVL from 10 December 2021 to 9 December 2022 and also includes movements in the final period of the Administration not covered in our final Administration progress report (27 November 2021 to 9 December 2021).

Notes

Note 1 - The total GBP equivalent is a US\$/£ exchange rate (1:0.81918) as of 9 December 2022. The previous period's US\$/£ exchange rate was (1:0.7558) as at 9 December 2021. As per the final report in the Administration, the US\$/£ exchange rate was (1:0.75011) as at 26 November 2021.

Note 2 - An exchange rate gain has arisen from a change in value of the funds held over the Period due to the £ depreciating against the US\$. This is a theoretical gain, stated for presentational reasons. Some estate funds are held in a currency other than sterling because upon our Administration Appointment, funds were already held in US dollars (by virtue of the Company's activities in the US insurance market). As a large proportion of the Company's creditors are based in the US and claims will be paid in that currency, we have not converted these funds to sterling in order to avoid crystallising any FX loss.

Note 3 - All amounts are shown exclusive of VAT, with VAT paid being included as a separate item under Payments. The Company is partially exempt from VAT and therefore some of the VAT paid will be recoverable and some will not (determined at each VAT return). Our assumption is that the Company can continue to recover c.72% of VAT. Any VAT paid within the current period which is irrecoverable will be reflected in future progress reports.

Note 4 - Scheme Advisor Fees represent payments in respect of the PwC actuarial team's work on the claims assessment process.

Appendix B: Expenses

Expenses are amounts properly payable by us as liquidators from the estate, but excludes our fees and distributions to creditors.

These include disbursements which are expenses met by and reimbursed to an office holder in connection with an insolvency appointment.

Expenses fall into two categories:

| Expense | SIP9 definition |
|------------|---|
| Category 1 | Payments to persons providing the service to which the expense relates who are not an associate of the office holder. |
| Category 2 | Payments to our firm or our associates or which have an element of shared costs (for example, photocopying and mileage disbursements, or costs shared between different insolvent estates). |

We don't need approval from creditors to draw Category 1 expenses as these have all been provided by third parties but we do need approval to draw Category 2 expenses. The body of creditors who approve our fees (in this case the Creditors' Committee) also has the responsibility for agreeing the policies for payment of Category 2 expenses.

The following table provides a breakdown of the Category 2 expenses have been incurred by us as liquidators or our associates, together with details of the Category 1 expenses that have been incurred by PwC and will be recharged to the case:

| Category | Expense | Costs incurred £ |
|----------|---|---------------------|
| 2 | Photocopying – Up to 10 pence per page copied, only charged for circulars to creditors and other bulk copying. | 2.35 |
| 1 | System maintenance fee | 66.54 |
| | Postage | 209.14 |
| | Storage and archiving | 1,238.49 |
| | Hospitality expenses for the Company staff | 896.92 |
| | Total in the Period | 2,413.44 |

The table below provides details of the expenses incurred in the final period of the Administration and also the CVL during the Period. This table should be read in conjunction with the receipts and payments account at Appendix A, which shows expenses actually paid during the period and the total paid to date.

Appendix C: Remuneration update

Fee approval

During the Administration, the Creditors' Committee fixed the basis of the Administrators' fees by reference to time properly given by the Administrators and their staff in dealing with the Administration. The fee basis agreed in the Administration has been adopted and continues to apply in the CVL.

As discussed in our previous reports, an independent fee assessor was appointed to assist the Creditors' Committee regarding approval of our fees. We have provided various information to the fee assessor in order for him to complete his review. A summary of the fee approvals provided by the Creditors' Committee is included on page 10 of this report.

Time cost charges

The time cost charges incurred in the period covered by this report (10 December 2021 to 9 December 2022) are £1,753,406.30 (excluding VAT).

As mentioned on page 8 of this report £25,362.70 of cost was incurred on activities not covered in the Administrator's final progress report.

Included on the following page is a table showing hours and cost per grade across each key area of the estate in the final period of the Administration and the CVL, inclusive of the hourly rates agreed with the Creditors' Committee.

We set out later in this Appendix details of our work to date in the CVL, our anticipated future work, expenses, subcontracted work and payments to associates.

Our time charging policy and hourly rates

We and our team charge our time for the work we need to do in the CVL. We delegate tasks to suitable grades of staff, taking into account their experience and any specialist knowledge that is needed and we supervise them properly to maximise the cost effectiveness of the work done. Anything complex or important matters of exceptional responsibility are handled by our senior staff or us.

All of our staff who work on the CVL (including our cashiers, support and secretarial staff) charge time directly to the case and are included in any analysis of time charged. Each grade of staff has an hourly charge out rate which is reviewed from time to time. For the avoidance of doubt, work carried out by our cashiers, support and secretarial staff is charged on a time costs basis and is included in the analysis of hourly rates charged by partners or other staff members. Time is charged in three minute units (i.e. 0.05 units). We do not charge general or overhead costs.

We set out below the maximum charge-out rates per hour for the grades of our staff who already or who are likely to work on the CVL including our specialist teams namely Tax, VAT and Pensions.

We call on colleagues in our actuarial team where we need their expert advice to evaluate and value the creditors' claims. Their charge-out rates are under separate engagement terms as approved by the Liquidation Committee and the following are the maximum rates by grade per hour.

| | Liquidators' team Pension | | Actuarial | team rates |

| Associate/other | 243 | 319 | 203 | 179 |
| Offshore professionals | 221 | 319 (Associate) or 438 (Senior associate) | N/A | N/A |

Reflecting the increasingly mobile and flexible nature of the PwC workforce and the narrowing of our London and regional cost bases we have moved to one uniform rate card for our standard restructuring and insolvency services from 1 July 2022. In addition, as the range of work that may be undertaken by our offshore professional colleagues increases, we also provide updated information for that role.

Offshore professional colleagues may provide assistance, albeit that the majority of the work on this case will be undertaken by the UK based team. An off-shore professional at the higher end of the fee bracket generally has appropriate insolvency experience or an accounting qualification, depending on the nature of the work and will assist with planning and control of various aspects of the insolvency. An off-shore professional at the lower end of the fee bracket will typically have a finance-related qualification and appropriate skills to complete basic insolvency related tasks and provide administrative support to the team including efficient document preparation and data entry, records management, and general data analytics. All work under the supervision of more senior staff.

Payments to associates

No payments have been made to associates or any party who could reasonably be perceived as an associate during the period of this report. Relevant parties have been chosen due to their specific area of expertise or technical knowledge and payments to those parties based on standard commercial terms.

Our work in the Period

Earlier in this section we have included an analysis of the time spent by the various grades of staff. Whilst this is not an exhaustive list, in the following table we provide more detail on the key areas of work.

| Area of work | General Description | Work Included |

Our relationships

We have no business or personal relationships with the parties who approve our fees or who provide services to the CVL where the relationship could give rise to a conflict of interest.

Details of subcontracted work

The following work, which we or our staff would normally do, has been done by subcontractors/will be subcontracted out. Larking Gowen LLP were the incumbent payroll provider and it remained cost effective to continue with these payroll services following the appointment of the Joint Liquidators. The costs in respect of this service incurred to date and estimated future costs can be seen in our expenses table at Appendix B.

Appendix E: Creditors' rights to opt out of receiving certain communications

The Insolvency (England and Wales) Rules 2016 ("IR16")

Information provided to creditors on opting out in accordance with Rule 1.39

As part of our first communication with you, we are required to inform you about your right to elect to opt out of receiving further documents relating to these proceedings as follows:

You have the right to elect to opt out of receiving further documents about these proceedings unless:

(a) the Insolvency Act 1986 requires a document to be delivered to all creditors without expressly excluding opted-out creditors;

(b) it is a notice relating to a change in the office holder or the office holder's contact details, or;

(c) it is a notice of a dividend or proposed dividend or a notice which the Court orders to be sent to all creditors or all creditors of a particular category to which the creditor belongs.

Any election to opt out will not affect a creditor's entitlement to receive dividends, should any be paid to creditors. Similarly, unless IR16 provide to the contrary, opting-out will not affect any right the creditor may have to vote in a decision procedure or participate in a deemed consent procedure in these proceedings, although the creditor will not receive notice of it.

If a creditor opts out, they will be treated as having opted out in respect of any consecutive insolvency proceedings of a different kind in respect of the same company.

A creditor can opt out at any time by delivering written notice to the office holder at the postal address noted in the covering correspondence or by e-mail to: uk_insolvencydocsrequests@pwc.com. The notice must be authenticated in accordance with rule 1.5 IR16 and dated by the creditor. A creditor will be treated as an opted-out creditor as soon as reasonably practicable after delivery of the creditor's election to opt out.

An election to opt out can be revoked at any time by delivering a further notice to the office-holder in writing, authenticated and dated by the creditor. A creditor ceases to be an opted-out creditor from the date the notice is received by the office holder.

Should you have any questions on this process, please use the contact details in the covering correspondence.
